# GALVANIZED STEEL COIL GALVALUME STEEL COIL GALVANIZED STEEL SHEET GALVALUME STEEL SHEET

RELIABLE SERVICE

Material	D*51D/D*52D/D*53D/D*54D/S250GD/S350GD/S550GD
Size	0.12 to 100mm, 600-1250mm & OEM
Zinc Coating	30-275g/m <sup>2</sup>
Spangle	Big Medium Small Zero

## Product Usage

- ① According to the main purpose, galvanized sheet can be divided into general use, indoor use, engineering building side board use, structure use, tile ridge board and low alloy board.
- ② The demand for construction and light industry is the main market for galvanized sheets, and from the household appliance industry to the consumption of galvanized coils, air-conditioning is the main consumption of galvanized steel products.
- ③ The back panel of the indoor unit of the air conditioner, the back panel of the cabinet, the inner parts, the outer casing, and the interior of the outdoor unit are all made of galvanized sheet
- ④ The automobile industry is also the main industry for galvanized sheet consumption, and its weight is much heavier than household appliances.

### PPGI/PPGL

RELIABLE SERVICE

Size	0.12 to 100mm, 600 - 1250mm & OEM
Paint Kind	PE/ SMP/ RMP/ HDP/ PVDF
Paint Brand	Nippon, Akzonobel, Wente, Nanshan
Surface	Normal/ Wrinkled/ Matt/ Wooden/ Stone/ Print
Color	Ral Color Chat

## Product Usage

- ① The market use of color coated steel plate is mainly divided into three parts: construction, home appliances and transportation.
- ② Color steel plates for construction are used to construct roofs, walls and doors of industrial and commercial buildings such as steel structure factories, airports, warehouses, and freezers.
- ③ Home appliance color panels are used to produce refrigerators and large air-conditioning systems, freezers, bread machines, furniture, etc.
- ④ In the transportation industry, electro-galvanized and cold plates are generally used as substrates, which are mainly used for oil pans, automotive interior parts, etc.
